WHY CHOOSE AN INTEGRATED PAYMENT SOLUTION?

Integrating your payment processing services with your point-of-sale (POS) system will save you time and money and provide you with a more secure option to ensure that your customers' data is never compromised. Take advantage of savings, security, service and incremental value-adds by using Cayan for your payment processing.

LOW COSTS

By using Cayan to process your credit cards, you avoid all third-party processing fees and any additional transaction fees. No need to worry about paying extra for set-ups either. Cayan also offers free gift and loyalty card programs, virtual terminal access and other additional value-added services. Furthermore, Cayan will meet or beat any rates you are currently paying, ensuring you are receiving cost-effective processing. Lastly, Cayan doesn't lock our merchants into expensive merchant account contracts, meaning we have to earn your business month after month.

ENHANCED SECURITY

The Genius® Customer Engagement Platform® from Cayan takes the POS "out of scope" from PA-DSS. What does this mean for you? You can accept credit cards comfortably knowing every swipe utilizes the most secure method of payment processing available, and no sensitive data is shared with the POS. Furthermore, by using integrated processing with a PA-DSS validated POS system, you can alleviate many of the burdens PCI compliance creates for your business. Reduce the time and effort it takes to perform your audit and worry about the things that matter most to your business: maintaining existing customers and attracting new ones.

STREAMLINED SUPPORT

By using an integrated payment solution with your POS, merchants can eliminate the need for third-party support issues. When you sign up for a Cayan merchant account, you will receive award winning customer service along with 24/7/365 technical support. Why have three separate contacts for the same process? With integrated payment processing, you don't have to.

Discover the full potential of what a partnership with Cayan will deliver for you, your business, and your valued customers.
